TO: Engineering and Architectural Organizations in the Metropolitan
Washington, D.C. Area

As part of the observance of Engineers and Architects Day, February 25, 1970, the D. C. Council of Engineering and Architectural Societies, consisting of 35 member organizations, sponsors a Professional Awards Program. These awards are intended to provide a tangible symbol of recognition of those individuals who have compiled a significant record of outstanding achievement or contributions in those fields of endeavor represented by the sponsoring organizations. The purpose of the Council is to enable the architectural, engineering, and allied technical organizations to render a more effective public service and to contribute to the advancement of those professions.

You are, therefore, invited to nominate a member(s) of your organization for special recognition during Engineers' Week. The Professional Awards Committee solicits your recommendations of candidates for the 1970 awards in engineering (research, development, utilization) and architecture (design and/or implementation). Four professional men and women, two architects, and two engineers will be honored by the D.C. Council as part of the Nationwide observance of Engineers' Week.

Nominations must be received by the Awards Committee no later than January 26, 1970 to allow adequate time for review and selection. Enclosed are sheets outlining the criteria for nominations. Additional copies of the enclosed nomination sheets can be reproduced, if needed.

The award to each of the four winners will include a suitably engraved gold key, known as the National Capital Award, and an Award Certificate both to be presented at a luncheon to be held on Wednesday, February 25, 1970 at the Statler Hilton Hotel.

Sincerely yours,

E. A. Wareham 3rd
